

## Saboon

Grown on trees, Soap Nuts is a fruit that contains natural surfactant (Saponin) that works to remove dirt. When this dried fruit comes in contact with water, it releases natural surfactant that creates mild suds that washes your clothes and cleanses your household. Since centuries ago, people around the world have been using Soap Nuts for their laundry, household cleaning, and even for personal body care and hair wash. And today, it is widely recognized as an Eco-friendly alternative to synthetic detergent.

### Soap Nuts Is Great For Anyone

Soap Nuts is safe for your health and for our environment. It is a great alternative for people who are allergic to chemical residue on clothes caused by detergent. Soap Nuts is safe for babies and children. And for people with skin condition such as Eczema, Soap Nuts will not aggravate the condition. And for anyone who wants a clean and safe home for their family, Soap Nuts is an excellent option.

### Benefits Of Using Soap Nuts
