POLY ROOF CATALOG

Our Poly Roof are built from 100% Post-Consumer Recycled Tetra Pak Cartons that are placed in a hydropulping process and then compressed with high pressure and heat.

The unique mix of compressed polyethylene and aluminium foil ensure a strong waterproof, Lightweight and High Flexion Resistance roof.

An extra layer of aluminium foil ensures heat-reduction and anti-fungal properties.

Perfect for Outdoor sheds & garages.

Dimensions Per Sheet
Height: 210cm
Weight: 85 cm
