Premium Luxury Flooring, NOX LVT

Luxury Flooring
with Proven Designs
and Innovative Standard
by Global No.1 Flooring Brand NOX

Stability and Solidity : EPT™ Shield & EMT™ Core Technology

With NOX EPT Shield Premium Matte Coating and EMT™ Core Multi-Layers Technology, the figure is stable and solid.
The safety of EPT™ Shield's anti-microbial ingredient has been proven by US EPA.

1

Is your floor safe for your family?

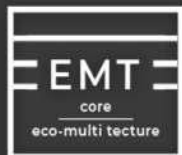

It may contain controversial materials such as antimicrobial Nano-silver. NOX guarantees your flooring to stay safe, strong and durable.
Safe because we care.

NOX LVT is proven to be SAFE.

Without using Nano silver (controversial to be harmful for human health), NOX EPT™ anti-bacterial ingredient removes 99.9% of bacteria. EPT™ anti-bacterial ingredient is proven to be safe by US EPA registered.

* US EPA: US Environmental Protection Agency

2

How many layers are inside your LVT?

Only an integrated multi-layer structure can ensure long-term supreme dimensional stability. Despite the complexity, all of NOX products are multi-layered, in a customized way..
Built to last.

NOX LVT has different structure that is more STABLE.

NOX's outstanding expertise in IVP can develop highly customized multi-layer structure for which each and every layers are uniquely formulated. Its EMT™ Core structure ensures long-term supreme dimensional stability.

(Dimensional stability tests at 80°C for 6 hours : Less than 0.07% variation)

SPECIFICATIONS

Thickness	3.00 mm
Wear layer	0.50 mm
